

Release note

FW v1.2.10 and Android/iOS app v1.2.0

2022-08-08

To achieve a new features and bug fixes please use latest [FW](#) and Teltonika Energy app versions.

NEW FEATURES:

- **New Teltocharge pairing with phone;**

To implement better safety features and enable recovery mode, Teltocharge product now has 2-code system.

- Installer code is used to enter the Installer Menu window (the same as before);
- Pairing code is new number- last 6 digits on the Installer code sticker. Now, when the user would want to pair mobile phone with the charger for the first time, the panel for the *Pairing code* will appear. This feature allows people to evade unwanted connections and product usage from third party.

**If TeltoCharge is not pairing, try to go to phone Bluetooth settings, find the charger and press forget this device, reboot the charger and try pairing process from the beginning.*

- **Recovery mode after reboot** – This is an additional feature, which would allow to recover access and settings to the charger, when paired device is lost. After rebooting the charger, it should be accessible to not paired devices for 5 minutes. In order to recover the device, user will need to write security code called – Pairing code.
- **Encrypted BLE communication (according to cyber security requirements)**
- **Time zone configuration;**
- **Ability to lock cable inside the charger;**
