

## 7.4 kW TeltoCharge front-plate (socket version) Electrical information

### 7.4 kW TeltoCharge electrical specifications

TeltoCharge have different electrical specifications who depends on selected power, which can be customizable to suit user needs.

#### AC INPUT SPECIFICATIONS

##### 7,4 kW TeltoCharge

Input AC power connection	1 phase
Maximum current	32 A
Input voltage	(L-N) 230 ± 10% VAC
Rated frequency	50 / 60 HZ
Standby power consumption	4 W
Earth (ground) fault protection	30 mA AC, 6 mA DC
Overvoltage category	CAT III
Protection against electric shock	Class I

#### AC Output specifications

AC output voltage range	1 phase: (L-N) 230 ± 10% VAC
Connection Standart	Type 2 cable Type 2 socket

#### Power Cable

Maximum cable diameter	17.5 mm
Maximum wire cross section	7.5 mm <sup>2</sup>
