Installation process

Housing Installation

- ▲ Place the drilling template on the wall and mark the three fixing points.
- **▼B** Drill holes where the fixing points are marked.
- **C** Insert the wall plugs into the fixing holes.

×

- 1. Fix the device on the wall by inserting the self-tapping screws (start with the top screw and make sure the housing is horizontal).
- 2. Make sure the cable gland is properly mounted on the cables (AC input cable and Ethernet cable).
